Vero Beach Homebuyers Discover That GHO Offers Unbeatable Value on Custom Homes in Great Locations

When Teri Hoover, Realtor with RE/MAX Beach and Beyond in Vero Beach, had exhausted a number of short sales, re-sales and other options but still could not find the home her customer really had in mind, she turned to GHO Homes. That's when Teri and her homebuyer discovered that the GHO Homes' "Tailor Made Program" could put a custom-designed, value-added new home well within the homebuyer's budget. So Teri's homebuyer decided to purchase a new "Tailor Made" GHO home at the homebuilder's Fieldstone Ranch community in Vero Beach.

GHO Homes has a strong history of delivering what homebuyers want – because two generations of the family-owned company have built their reputation based on the design and construction of affordable quality homes. Committed to excellence and customer satisfaction, GHO Homes has built homes in Broward, West Palm Beach, Sebastian and Vero Beach. According to Teri Hoover, it's their highest level of personal service, dedication and a "make it happen" attitude – combined with GHO's "Tailor Made Program" – that is the hallmark of their success.

"My buyers wanted a home created and suited to their personal needs and desires. So, with GHO Homes owner Bill Handler at the helm, their home was designed just the way they wanted it.

The process is ever evolving and undeniably time consuming, but in the end, their personal concepts were created. Creating, designing, and building a superior custom home is the mantra of GHO Homes and from concept to completion, the GHO team has been there every step of the way. I will take my customers to GHO every chance I get," says Hoover.

The homebuyer had a particular set of goals and room sizes in mind, and a keen perception of the new home's concept. As part of GHO's Tailor Made commitment, the homebuyer was shown numerous plans, a few models and spec homes, and GHO came up with a starting point based on one of their existing designs. GHO added two bathrooms, moved and changed the kitchen layout and island, designed a custom pool, enlarged the dining room, added some windows, removed some windows, and even space-planned the bedrooms to fit her specific beds and furniture sizes. The final plans are currently being engineered and finalized, and GHO Homes will begin construction in a few weeks on the perfect "Tailor Made" for Teri's homebuyer.

All GHO homes are built with energy-efficient materials and methods, and feature the latest design features and finishes. In addition, GHO Homes offers homebuyers their exclusive "GHO Tailor-Made Program," which allows homebuyers to customize their new homes with numerous options, built-ins and upgrades that far exceed industry standards. The GHO Tailor-Made program sets GHO Homes apart from its competitors by providing a wide range of floor plan options, including the homebuilder's Generations Series, featuring new homes designed specifically for multi-generational living. GHO Homes regularly provides its customers with a custom one-of-a-kind home, at a value balanced to their needs, and the large number of repeat GHO homebuyers confirms that the GHO Tailor-Made program has been a resounding success with their customers.

All GHO Homes residential communities in Vero Beach feature easy Interstate access in a setting that is only minutes from the beach, shopping, dining, great K-12 schools, medical facilities, and all the recreational venues offered in Vero Beach.
